

## **ArchitectsParty|2016** **Cocktails in the architecture practices of Europe** **From 29 November to 2 December in Amsterdam+Rotterdam**

**ArchitectsParty**, cocktails in the architecture practices of Europe, arrives in the Netherlands for the second time. From **29 November to 2 December** the itinerant event gathers enthusiasts and sector professionals in famous practices based in Amsterdam and Rotterdam, making it possible to visit creative locations normally accessible only to a few and to make direct acquaintance with the architects and their works.

The seven practices involved in the Dutch event are all active both in Holland and abroad: C4ID Interieurarchitecten, Framework Studio, KOOL ontwerpers, Mark Koehler Architects, Natruified Architecture, Orange Architects, Studio OxL.

Four evenings and seven exclusive parties, which this year will also compete in the ArchitectsParty Award: guests can vote online for what they thought was the most fun evening, the most inspiring decor or the best dj set simply by clicking on [www.towant.eu](http://www.towant.eu) .

Media partners of the initiative are ELLE Decor magazine, Architonic and Mimoa. Design partners of the event include important brands as Ceramica Sant'Agostino, Corà Legnami, Essequattro+Nero3, Gira, Sedus, Xera.

The evenings will be spiced up by the added flavour of Birra Menabrea, official drink partner, and delicious savoury snacks.

**ArchitectsParty** is conceived to involve and stimulate relations between sector professionals and enthusiasts of this creative world. After touring the main Italian cities and London, the 2016 edition will terminate at Amsterdam+Rotterdam.

The format was created in 2008 by TOWANT, event agency specializing in the organisation of architecture events in Italy and abroad which works in liaison with some of the most important brands of Italian and international design. The events organised over recent years include ArchichefNight, culinary appointments where the architect is the chef and DJ Arch, parties in the design showrooms where the DJ is an architect.
