Nurastone captures the authentic character of the Sardinian coastline: strong and primal, yet at the same time harmonious and sophisticated. Just like breccia. A stone-effect collection that brings us back to the essence of a geological tale.

Nurastone racconta il carattere autentico delle coste sarde: forte, primordiale, ma allo stesso tempo armonioso e sofisticato. Così come la breccia. Una collezione effetto pietra che ci riporta l'essenza di un racconto geologico.
